

I am writing in regards to the radio station K-love. I am a teacher in a daycare and have K-love playing at all times. I am very grateful to have a radio station that the children can hear without me having to worry about things that are inappropriate. This station is a calm center in, some days, a very stormy place. I believe it would be a disservice to the public for LPFM stations to take precedence over FM stations. Radio stations such as K-love offer hope to people who feel there is no hope left. K-love has had many testimonies of people who have chosen to commit suicide but have stopped because of a song or a word they have heard on K-love. Testimonies of single parents who have faced many lonely days feeling as if they have a close friend because of the message that K-love brings. I ask you to consider these things when making decisions concerning radio stations such as K-love. Radio stations such as K-love are not only music and entertainment, but also a bringer of hope and comfort to many hurting people. Thank you for your time and consideration.
